HI-TECH DENTAL SYSTEMS

About Us

Hi-Tech Dental Systems is a company that has been creating innovative dental solutions for more than two decades all over India. We develop, design and assemble high quality dental units for a variety of customers ranging from private dentists to dental clinic chains, hospitals and educational institutions.

Our mission is to provide unique and ethical products that are made to last the entire career of a dental professional at an affordable cost.

All our dental units are manufactured and assembled by hand in our own manufacturing facility with all the components and other accessory items sourced from reliable supply chain partners. Keeping our production allows us to track and have a clear overview of the origin of our products. The company follows all the necessary standards and regulations and we are certified by ISO 13485 : 2016 and CDSO.

Our mission is to provide our customers with dental units that last the entire career of a dental professional. Every unit that we make is unique, with a fully customizable feature set, so that no customer of ours has to compromise on their needs. This has resulted in more than 14000 satisfied users in India in dental clinics, hospitals and more than 57 Dental institutions all over India.

We at Hi-Tech Dental Systems supply our products all over India and offer serviceability in any part of the country whenever required making it viable for all the professionals to invest in our products.
